Lecture hours: 3

Prerequisite: SCWK 31163 Social Work Practice I

Prerequisite or corequisite: SCWK 34363 Populations at Risk and SCWK 34263 Social Work Practice II

Effective Catalog: 2020-2021

I. Course Information

A. Catalog Description

Prepares students with knowledge, values, skills, and ethics for macro level generalist social work practice. Topics include community, bureaucracy, social planning, social action, and locality organization development.

II. Student Learning Outcomes

A. Subject Matter

Upon successful completion of this course students will be able to:

1. Describe a framework for understanding community and organizational problems.
2. Apply an appropriate framework for understanding a target population.
3. Describe theories in understanding communities.
4. Utilize a framework for community assessment.
5. Describe how organizations can bring about change.
6. Apply the Framework for Organizational Assessment tool.
7. Develop community interventions using current methods.
8. Utilize the strengths/capacities, empowerment, and evidence based practice principles to guide practice in the community.

B. University Learning Outcomes

This course enhances student abilities in the following areas:

Analytical Skills

Critical Thinking Skills

Students will demonstrate the fundamental skills of engagement, assessment, and evaluation in generalist social work practice related to community, bureaucracy, social planning, social action, and locality organization development to bring about change. Practices follow a scientific-practitioner model, emphasizing the use of empirical data guiding social work practice.

Communication Skills (written and oral)

Students will use professionally appropriate written and verbal communication skills to prepare papers and oral presentations, using styles that consider its usefulness to community, bureaucracy, social planning, social action, and organizational stakeholders and key players.

Ethics

Students will identify and process ethical dilemmas, appraising ethical conduct shaped by institution norms and contrasted by the NASW Code of Ethics.

Students will analyze, synthesize and evaluate ethical elements of policies and practices, utilizing the strengths/capacities, empowerment, and evidence based practice principles to guide macro-level community practice.

Global and Cultural Perspectives

Students will analyze and incorporate cultural diversity and differences into macro level generalist social work practice solutions.
