General Syllabus

WLLC 35003 Languages of the World

Credit Hours: 3 Lecture Hours: 3 Laboratory Hours: 0

Prerequisite: ENGL 10203 Composition II

Effective Catalog: 2024-25

I. Course Information:

A. Catalog Description

Explores language itself: its classification, development, and structural aspects of the language.

B. Additional Information

This course looks at how languages are classified from a genetic and structural point of view. Structural aspects of the languages of the world are then surveyed in more detail. Students will also learn about and discuss the development of language as a human form of communication, and how it has evolved into the current written and oral codes.

II. Student Learning Outcomes

A. Subject Matter

Upon successful completion of this course, the student will be able to:

1. Identify the characteristics that govern all languages and make them such.
2. Explain the basic structure of languages in terms of their sounds and organization into words, phrases, and sentences.
3. Identify the characteristics of various language classifications.

B. University Learning Outcomes (ULOs)

Analytical Skills

Critical Thinking Skills: Students will identify problems/issues and develop solutions/analysis.

Communication Skills (written and oral)

Students will communicate proficiently. Students will practice communication skills through discussions, presentations, and written assignments.

Ethical Decision Making

Students will model ethical decision-making processes. Students will practice responsible use of research materials and intellectual property.

Global & Cultural Perspectives

Students will reflect upon cultural differences and their implications for interacting with people from cultures other than their own. Students will analyze and produce a variety of texts avoiding the use of biased language.

III. Major Course Topics

- A. Characteristics of language
- B. Language as a human characteristic
- C. Language and the brain
- D. Language classifications
- E. Sound system of languages
- F. Word formation
- G. Organization in phrases and sentences
- H. Making meaning
